January 2018(Active)

Web Development Skills, Languages & Technologies

HTML, CSS, Javascript, JQuery, Firebase, Moment.js, Bootstrap, Ajax/APIs

Web Development Apps

Hipster's Paradise (Group Project)

- A simple web page that allows users to enter a city and state or zip code to see nearby Ticketmaster events and nearby Breweries. The page also allows for users to save their searches for later use.

Train Scheduler

- This application makes use of moment.js and firebase to maintain a list of user inputted train data and update a list of train arrival times. The app will tell the user the time the next train will arrive in am/pm format as well as how many minutes away that train is from the current moment.

GifTastic

- This application makes use of Javascript ajax to request data from the Giphy API. When you click a button with a specific topic, the app will search gifs and display 10 of them on the screen. The gifs initially display as stills and can be clicked to animate.

Trivia Game

- This application makes use of JQuery to create a Star Wars themed trivia game. There are 5 questions, with a 15 second timer to answer each one. At the end, the option is given to play again, which will reset everything without refreshing the browser.

Crystal Collector

- This application makes use of JQuery to create a game in which the user must click on 4 crystals, each with a random value between 1 and 12 assigned to it. The user must continually click on the crystals to add up their score and match the random number generated at the top of the screen.

Psychic Game

- This application makes use of Javascript to create a game in which the computer randomly guesses a letter and the user gets 9 tries to guess the letter the computer is thinking of.

Sterile Processing Skills

Experience with Cardio/Thoracic, Vascular, ENT, General, GYN, Neurology, Oral/Maxillofacial, Orthopedic, Plastic/Burn, Urology, Endoscopic and specialization in Davinci SI/XI Robotic instrumentation

Computer Skills

Experience with assembly and repair of computer hardware and Microsoft Office & Windows Operating Systems
